GREAT SHIPMENTS OF COAL. Five hundred and ten thousand tons of coal were discharged during the season at docks.

A SMALL BLAZE

Between six and seven o'clock yesterday evening an alarm of fire was rung in to the fire hall. The brigade responded in splendid time. Fire was discovered in K. A. McLeod's new house on Queen's avenue north. The workmen on the house had been heating the mortar and some of the fire caught on a barrel of shavings in the basement of the house. The flames reflected on the windows and some persons passing sent in the alarm. The hook and ladder company and the hose wagon turned out, but the fire was soon extinguished. No damage resulted.

Although the firemen ran for several minutes, only a few persons in the neighborhood of the hall heard it. The urgent necessity for a proper fire alarm system is evident to everyone.

SCHOOL BOARD MEETING

The Edmonton Protestant public school board held a meeting in the secretary's office last night. Those present were Alex Taylor, H. C. Taylor, K. A. McLeod, H. A. Gray, Secretary St. George Jellett and Inspector Peritt.

The minutes of last meeting were read and confirmed. A communication was read from W. Rea, principal of the Edmonton high school, in which he offered to raise \$100 for a library for the high school, provided the board would vote one hundred dollars to supplement it. On motion of K. A. McLeod and Rev. H. A. Gray, the sum of \$100 was voted as requested.

It was decided to give the order for the seats required for the opening of the new rooms to J. T. Blowey. Tenders for coal for furnace and stove are to be immediately called for.

The secretary was instructed to telegraph Miss Stevens that her application for a position on the public school staff was accepted, her duties to commence January 1st. Miss M. Skelton was offered another vacancy on the teaching staff, her duties to commence January 1st. Provided Miss Skelton does not accept, Miss Clara L. Brown will be given the position if inspectors Boyce and Bryan report favorably.

The following accounts were then ordered to be paid:—J. Milner, \$240; M. Bellman, \$10; K. W. McKenzie, \$5; D. W. Macdonald, \$18.05; Cushing Bros., \$15.25; McIntosh & Campbell, \$8.30; Kelly & Beak, \$5.30; H. W. B. Douglas, \$45; J. A. Skelton, \$220; Edmonton Post, \$8; N. Champagne, \$3.19; R. J. Main, \$84.55; October and November pay sheet, \$2,306.96; Chung Lee, \$50; Edmonton Bulletin, \$1; Ross Bros., \$26.33.

The meeting then adjourned.

PROVINCIAL AUTONOMY IN B. C.

A recent press dispatch announces that the new Melville government of British Columbia, has been sustained by a vote of 22 to 16, on the second reading of a bill to limit a loan of a million dollars at five per cent. for ten years. This majority is larger than the government would have had on a purely party division. Two socialists and the one labor representative voted with the government and the opposition only differed from the government as to the term for which the loan should run. Their amendment was for a term of three years instead of ten, as proposed by the government. These facts indicate that a large provincial loan was recognized as an absolute necessity by all parties and that interest at five per cent would have to be paid. It will be noted that it has a wealth of natural resources unequalled in the world; that it has the fullest measure of local self-government, and uses its power of direct taxation to an extreme and yet its financial necessities are such that it has to borrow a million dollars at five per cent. Provincial autonomy does not provide for the financial needs of British Columbia except by the borrowing of money.

The instance of this loan may fairly be used as an object lesson to the Territories. If, with the fullest measure of provincial autonomy and the fullest control of its most abundant and valuable resources, British Columbia cannot keep out of debt, how are the Territories to avoid a like result under similar circumstances. There may be many reasons for the financially crippled condition of British Columbia. But two of them are the leading and important ones. The permanent nature of the provincial establishment and revenues always encouraged the incurring of expenditure up to the limit, such as a numerous cabinet at high salaries and a million dollar parliament building. Then recent rapid increase of population greatly increased the necessary expenses of the government, without adding to the annual federal subsidy. With the best of management the provincial finances must have got to the wrong side of the state or the growth of the new portions of the province must have been crippled for lack of needed expenditure. This is altogether aside from any question of mismanagement or misgovernment. The moral is that a rapidly and greatly growing country must have correspondingly growing revenues. That if its financial arrangements are not such as to provide a growing revenue to correspond with its growing population, it is necessarily at a serious disadvantage.

In their present condition, the Territorial revenues may not be fully equal to their needs, but at any rate they grow with the growth of the needs, as the provincial revenues do not.

It will be noted that the British Columbia government is borrowing a million for ten years at five per cent. The Dominion government recently offered the Territorial government an advance for expenditure on capital account, of a quarter of a million dollars without interest. The offer was refused on two grounds; one, that the Territorial government could provide for the urgent needs of the Territories without using it, and the other that if the advance were accepted it would delay the granting of provincial autonomy. That is to say, the acceptance of an advance without interest would delay the securing of a loan at five per cent interest, as British Columbia is now doing. The settler who wants schools and roads and who must have money from or through the Territorial government in order to get them, will appreciate the difference between a capital advance without interest and a loan upon which five per cent interest must be paid, and as well the difference between a condition of affairs which enables the Territories to get along without borrowing money, even without interest—so the Territorial government—says—as against a condition which compels the borrowing of a million at five per cent interest.

TRAM LINE SYSTEM

The Bulletin has received the following letter from W. G. Trethewey of Montreal, with a request for publication:—

Editor Bulletin:—
Lest the citizens should have misunderstood the intentions of my company in the matter of the tramline proposition, and be laboring under the impression that we are asking a monopoly without regard to the interests of the community at large, I beg to make a few remarks, which, I trust, will be understood in the spirit they are given.

I do not wish to be looked upon as an outsider, in coming to the people for the privilege of constructing and operating a tram line in Edmonton, but having invested my interests there and intending to reside in Edmonton, I wish to be considered not as an alien, but as one of the citizens. The object of writer and associates in taking hold of the tram line scheme is, of course, to benefit ourselves through the enhancing of land values, but this cannot be done without benefit to others. Since, we may say nearly every person in Edmonton is a land owner, it will appear that all are more or less benefited by the advent of a tram line; besides the convenience it provides every citizen with to move about, and the prestige it confers upon the town.

The tram line from the standpoint of a transportation system, under the present conditions will certainly be run at a loss. That is self-evident. But in order to satisfy the capitalist against loss, the writer with his associates comes forward and places at the disposal of the company one thousand lots, for which they receive stock at par value in the company.

As the first year's business will be done with a deficit balance, enough of these lots are sold for cash to not only pay loss of operation, but to pay interest to the investor whose money has built the road.

Our company would be ready to enter into an agreement with the town that upon the population of Edmonton becoming thirty thousand, its net earnings from the operation of the tram line in the town, over a fair return on the money invested, would be divided with the city. As the town grew and the business increased this income would naturally be increased in proportion.

From the foregoing it is evident that Edmonton with a population of thirty per cent. only of what is required to make a road pay, will have the up-to-date advantage of a large and modern town, without one cent extra taxation to its citizens. I ask is this worth having or not?

Not wishing to trespass further on your good nature and valuable space, Mr. Editor, I must close with the remark that every business and thinking man must see what a tram line means for Edmonton at the present time, to the development of her surrounding resources; to her manufacturing; to her people; and to her prestige. And since the construction and maintenance of such a system would not cost one cent to her citizens and be under the supervision of the city engineer, so far as the citizens' interests were concerned, and by a contract entered into with the city, the citizens' interests would be fully protected, it must appeal to all who have the town's interest at heart, as a sure step in the march of progress.

Thanking you, Mr. Editor for your valuable space, I am,
W. G. TRETHEWEY.

Will Interest The Cultivated.

If you are at all interested in pretty china and handsome glass, you cannot spend ten minutes more pleasantly and profitably than by taking a look through our china department. We have this season made a very special effort to have a collection of china and glass which should possess sufficient artistic merit to please the most fastidious connoisseurs.

We believe our effort has been entirely successful, and we are now showing for the Christmas trade in this department, a class of goods which is usually found only in the larger stores in the great cities. You do not need to be an expert to recognize merit in these goods. Every piece has been selected for its individual and intrinsic merit.

There is an artistry, so to speak, in china and glassware. We would not trouble you to read this announcement unless we had goods to show you of a class quite distinct from those shown in every store along the street.

On our tables are shown some lovely Wedgwood ware (the real thing, not the obvious imitations which are often offered as such) in jugs of various sizes, and sugar bowls and cream jugs.

Cups and saucers and plates, in blue and gold, (real) million gold, which will wear a lifetime), possess a delicate beauty which would excite anyone for breaking the tenth commandment. In Copeland china (the real thing again) we have sets in white, with blue and gold stripes, very handsome, at \$25 to \$75. In Limoges china we have tea sets in rich and dainty designs at \$10 to \$15; also a large stock in this ware, which may be bought separately—cups and saucers, plates of various sizes, salad bowls, platters, etc.

In fancy, Bavarian china, we have a very interesting collection of odd pieces, in various colorings and very handsome decorations, such as salad bowls, cake plates, bon-bons, biscuit jars, chocolate jugs, etc. Prices on these will strike you as low.

In cut glass, we are showing some beautiful productions in decanters, spirit jugs, vinegar and oil bottles, carafes, bon-bons, etc. Decanters from the plain bowl, with cut neck and stopper, at \$2, to a magnificent, massive, sparkling, full-cut bottle, at \$15.

We have said nothing about ordinary decorated dinner and tea sets, toilet sets, etc. That is another story.

M. T. MONTGOMERY

THE FELT SHOE PROBLEM

It has been decided unanimously by the grand jury of the wearers of FELT SHOES that cold feet are not in it when felt shoes are worn.

This fact being the case, we call your attention to the magnificent range of felt footwear we have in stock.

The celebrated Dolge boots for men at \$4.25, \$4.50 and \$5.

Dolge boots for women at \$3, \$3.25, \$3.75 and \$4.50.

Dolge slippers for women, \$1.25, \$1.50, \$2, and \$2.25.

Misses Dolge boots, \$2, and \$2.75.

Misses', Women's, and Men's moose skin slippers, wool lined, fur trimmed, the most comfortable house slipper ever designed. The vexing question, What shall I buy for Christmas? is easily solved after seeing these slippers.

Another item of interest in slippers is our line of Women's all felt, fur trimmed, at 85c pair.

Our Women's all felt bala at \$1.75, is another of the many good values we have.

Also Men's all felt bala, at \$2.25, just as good value as the other.

There is no necessity to sacrifice appearance for comfort. The two are combined in our FELT FOOTWEAR.

We also handle rubbers made especially for felt boots.

One word more. Make it a point to call and see some of these foot-warmer. We shall certainly appreciate your visit, whether it be to purchase or otherwise. Also we can show you many things suitable for Xmas presents.

Remember we have the up-to-date shoe stock of the city.

—Council meeting to-night.
—Train left Red Deer on time.
—The Old Timers dinner in the Edmonton Hotel this evening.
—The special meeting of the city council, called for yesterday afternoon, failed to materialize.

—Lacombe Liberal association will tender a banquet to Frank Oliver, M. P., at Lacombe to-morrow evening.
—T. E. Peritt, public school inspector, has been inspecting the Edmonton public schools the past few days.

—The Calgary Albertan is of the opinion that H. B. Bennett will contest the Calgary constituency in the Conservative interests. Some time ago Mr. Bennett announced that he would not be a candidate, but according to the Albertan there doesn't seem to be anyone else in sight.

—The Edmonton fire brigade wish of the Edmonton Presbyterian Church held their semi-annual election of officers on Monday evening. It resulted as follows: President, Rev. D. G. McQueen; President, Mr. Young; Vice-President, J. Thom; Sec.-Treas., E. Casler. Organist, Miss A. McElroy.

—The Edmonton fire brigade wish to have it announced that they are supporting no special candidate for the council. Last year H. W. Heathcote was brought out as a fireman's candidate, but this year the brigade thinks that the council have done well by them, and have for this reason decided not to bring out any special candidate.

PERSONAL

C. Gallagher left for Calgary this morning.

Mr. and Mrs. Fred Ross left this morning for a trip to British Columbia and California.

John Montgomery, of the Singer Sewing Machine Company left for Winnipeg this morning on a business trip.

M. J. McLeod, of Lacombe, is in Edmonton to-day. Mr. McLeod has recently sold out his large general store at Lacombe.

R. J. Hutchings, Calgary, vice-president of the Great West Saddlery Company, who has been spending a few days in Edmonton, returned south this morning.

THE SINS OF THE FATHER

The National Stock Company completed its eight days' engagement in Edmonton last night. Their plays throughout have been excellent, and none more so than last night when they presented The Sins of the Fathers. There was a large audience. It was hockey night and the boys were present in full force. Mrs. Cornyn were the Edmonton hockey colors during the evening. Last night's play is a presentation of a true to life story. Bruce V. Noble played to great advantage as Mr. Brabazon. As Rosemond, Clara M. Cornyn was splendid. She took the part well and played it to perfection. Mr. Robbins as Mr. Deakin was good, but he surpassed himself as Sir Richard Curzon. H. J. Rhodes was splendid as Bob Watkin. He took a prominent part, and played it well. W. J. Olio as Ned Annesley and W. G. Rosch as Lord Petworth, were both good. Mrs. Eretwell and Maud Eretwell played their parts well, as did also the other characters.

The specialties were exceedingly good, the dancing by Joe and Ivy Lyons being especially enjoyed.

The company left for Fort Saskatchewan to-day, where they play to-night and to-morrow evening.

PREFACE

[to "Edmonton Illustrated"]

To those who have known Edmonton from its early days, and who wish to keep a reference of its present stage of development for the days when we shall have a great city here, we present this volume as one of value.

For all those who wish to demonstrate to distant friends the, to them, but little known conditions of living, general advancement in town and country, etc., etc., treated on herein we offer this volume as the most complete extant. Though Edmonton is rapidly becoming known the world over, yet the actual knowledge of these parts is generally but meagre and often very misleading, as the writer knows personally. This is also evidenced by the complete surprise shown by the average newcomer.

For these and other reasons we believe a work of this kind to be a real present need and our aim is to make it as exhaustive as it is within our power to do. Other works along this line have gone about half way; we have gone to the end, according to our light. Therefore we beg leave to present this little volume as the most practical and complete yet published, and beg you to give it your kindest consideration. The delay in publishing is largely directly due to the endeavor to include all of 1903's advancement, pictured and described.

Holiday Tips for Clothing Buyers.

To Buy a Suit or Overcoat Without

seeing our stock would be like discussing the drama without a knowledge of Shakespeare, or trying to find out Edmonton's advantages from a Strathcona real estate agent.

To be sure, there is much good clothing to be found in other stores, but you don't know how good ready-to-wear clothing may be unless you have seen our garments. Our stock contains the best of every grade, and in each grade you get the very best suit or overcoat procurable.

This is not a theory, but an established fact.

Our grades of greatest pride are those at \$10, \$12 and \$14. At those three prices you get enough style to satisfy any man.

It will pay you to do a little investigating. Then you will know

our value is the greatest, that your money goes farthest, a declaration that is echoed from the \$10 suit to the highest grade.

At \$10 you have the choice of fifteen different materials, from the fine imported worsteds to the finest domestic tweeds. All the best workmanship, lining and fit, equal to a custom made suit at more than double the price.

At \$12.50 our big specials are fancy worsteds and Scotch and English tweeds of the newest and most popular designs. Fall and winter weight, best farmers' satin lining, workmanship of the best, and fit guaranteed. The suits cannot be duplicated elsewhere at less than \$18.00.

At \$14.00 we show the cream of perfection in suits. The best imported worsteds, in black and fancy colorings. Artistic in cut, unequalled in finish and beyond compare in workmanship. A special feature of this grade is the new padded shoulder that lends grace and elegance to the figure.

Men's Fur Lined Coats.

If you intend buying a fur-lined overcoat, don't delay, as we have only a few left. The shells are made of black imported beaver cloth, the linings are of prime muskrat, and the collar of No. 1 quality Persian lamb. All sizes are here. Our special price is \$95.

For Boys and Youths

our efforts were untiring in securing the best manufactured, to maintain our reputation as HEADQUARTERS FOR BOYS' CLOTHING.

We are showing exclusive novelties in Boys' Brownie and Norfolk suits, Raglan and Blanket overcoats and rosters.

WHITE WHALE LAKE

If the quantity of mail matter received and sent be any guide as to the character of a settlement then ours should be of a high class. When our post office was opened last May, an ordinary mail sack was sufficient. Now it requires a second sack large enough to contain the courier himself, to hold the amount of reading matter the settlers here receive. And when the lumbermen's mail begins to come also, it will very materially increase the inflow. A sack of ten dollars worth of stamps in one week is an ordinary affair. In fact so far as amount is concerned, our office is not far behind Stony Plain. We are informed that the new post office to be opened in the southwestern part of Stony Plain, is to have a semi-weekly mail. It seems to us that we are as well entitled to such a service, if one may judge by the size of the settlement, the amount of mail matter received and sent, and the value of stamps sold. And why not? Our courier has to go down to meet the Saturday mail, bringing it up from Stony Plain post office on Saturday evening. After taking it over to Lake St. Anne and back on Monday, he has to carry the out going mail to Stony Plain on Tuesday, and then home empty. If he were to remain over at Stony Plain till next day at noon, he would receive the morning mail on Wednesday. So it could be as easily brought as to come empty, if he were paid for the loss of a day's waiting each week, or 52 days in the year. There would be no more driving or wear and tear, only the additional delay. He would have one day less to attend to his own business.

The rush to the lumber camps continues, a very healthy sign of the growth of our settlements in this Northern Alberta. Only a few of the old trappers are noticeable; another sign of the changing character of the settlements. Among the recent arrivals are noticed a number of English settlers from the British colony.

We caught a glimpse of Rev. Jno. McDougall, superintendent of Indian missions, as he passed on his return from his recent visit to White Whale reserve. He was accompanied by another, presumably Rev. Mr. Rice, of Red Deer Indian school. It is unfortunate that these visits are so timed as to find the Indians almost all absent from the reserve. What good might be accomplished by their visits is thus seriously discounted by finding few if any, to visit outside the missionary's family.
